Summary

Innovative AI Engineer with 8 years of experience in machine learning and natural language processing. Proficient in Python, TensorFlow, and PyTorch. Skilled in developing and deploying AI models for various applications, including chatbots and recommendation systems.

Education

Stanford University

Master of Science in Computer Science
Sep, 2014 - Jun, 2016

Technical Skills

Python, Machine Learning, Deep Learning, Natural Language Processing, TensorFlow, PyTorch, Scikit-learn

Soft Skills

Problem-solving, Collaboration, Communication, Creativity

Additional Skills

Research, Data Analysis, Technical Writing

Languages

English, Korean

Certifications

- Certified Machine Learning Engineer
- Deep Learning Specialization

Work Experience

AI Innovations

Senior AI Engineer

Jul, 2016 - Aug, 2022

AI Innovations is a research-focused company developing cutting-edge AI solutions.

- Led the development of a chatbot platform used by 100,000+ users.
- Implemented machine learning algorithms for personalized recommendation systems.
- Published research papers in top AI conferences.
- Collaborated with cross-functional teams to integrate AI technologies into products.

DataTech

Machine Learning Engineer

Sep, 2022 - Mar, 2024

DataTech specializes in providing data-driven solutions for businesses.

- Built predictive models for customer churn analysis, reducing churn rate by 20%.
- Developed NLP algorithms for sentiment analysis of customer feedback.
- Implemented deep learning models for image recognition tasks.
- Provided technical mentorship to junior engineers.
